

TUBA MANZOOR SHAIKH

Mumbai, India | +91 9321892404 | tubashaikh801@gmail.com | [linkedin.com/in/tuba-shaikh-345372360](https://www.linkedin.com/in/tuba-shaikh-345372360)

PROFESSIONAL SUMMARY

Entry-level Software Engineer with hands-on experience across the software development life cycle -- requirement analysis, design, development, and testing -- using C#, ASP.NET Core MVC, SQL Server, and Entity Framework Core, along with working knowledge of Angular and web services. Currently expanding into Microsoft Azure to support cloud-based system modernization. Built 3 full-stack CRUD applications applying object-oriented programming and MVC architecture. Comfortable using Git/GitHub for version control. Strong attention to detail and eager to contribute to modernizing administrative systems.

TECHNICAL SKILLS

- Programming Languages: C#, SQL, JavaScript
- Frameworks & Technologies: ASP.NET Core MVC, ASP.NET MVC, Entity Framework Core, Angular (working knowledge)
- Databases: Microsoft SQL Server, MySQL
- Web Services: Working knowledge of Web Services / API concepts
- Currently Learning: Microsoft Azure (cloud fundamentals)
- Version Control: Git, GitHub
- Frontend: HTML5, CSS3, Bootstrap, Responsive Web Design
- Tools: Visual Studio Code, Visual Studio 2022, Postman
- Practices: Software Development Life Cycle (SDLC), Debugging, Testing, Performance Optimization, Clean Code

PROJECTS

Catering Management System — Full-Stack Academic Project

Technologies: HTML, CSS, JavaScript, PHP, MySQL

- Analyzed and documented functional requirements for menu and order management, then designed and built a full-stack system in PHP and MySQL following MVC architecture.
- Developed CRUD functionality with a secure MySQL database layer, and tested each feature to confirm correct data flow through the ordering process.
- Built a cross-browser-compatible, responsive UI, following an Agile development workflow from design through delivery.

To-Do Task Manager

Technologies: ASP.NET Core MVC, C#, Entity Framework Core

- Gathered requirements and designed a task management application in C# using ASP.NET Core MVC and Entity Framework Core, applying object-oriented programming principles.
- Developed and tested task creation, status tracking, and search features, validating functionality against expected behavior before release.
- Built a fully responsive interface to support use across device sizes.

Employee Management System

Technologies: ASP.NET Core MVC, C#, SQL Server

- Designed and developed a complete CRUD-based employee management application, covering search, creation, updates, and deletion.
- Wrote, tested, and optimized SQL queries to support reliable record management and improve database performance.
- Strengthened data integrity by implementing and testing server-side validation across all input forms.

EDUCATION

Bachelor of Science (Information Technology) — CGPA 8.6

Sree Narayana Guru College of Commerce, Mumbai University

Aug 2021 – Aug 2024

Higher Secondary Certificate (HSC) — 83%

Noorul Islam College, Maharashtra State Board

Aug 2020 – Aug 2021

Secondary School Certificate (SSC) — 68%

Noorul Islam School, Maharashtra State Board

July 2019 – Aug 2020

ADDITIONAL INFORMATION

- Strong analytical and problem-solving skills with excellent verbal and written communication in English.
- Quick learner, adapting rapidly to new technologies and frameworks.
- Comfortable working independently and collaboratively within a team environment.
- Strong attention to detail and time management across multiple concurrent projects.
